

Munich, June 2022

The Technology and Innovation Management (TIM) Group at the TUM School of Management of the Technical University of Munich, headed by Prof. Dr. Joachim Henkel, is soliciting applications for a

Post-doctoral researcher in Technology and Innovation Management (f/m/d)

to join us by Fall 2022 or later by mutual agreement. The position is for two years with a possibility to extend.

Scientific Environment: The I&E Department and the TIM Group

Founded in 2002, TUM School of Management is part of TUM, one of the leading technical universities in the world, and the #1 hotspot for technology entrepreneurship in Germany. With its strong research environment and close ties to industry, the school constantly scores well in rankings, currently listed as the strongest German business school for research, and #9 in Europe for M.Sc. programs on entrepreneurship. The Innovation & Entrepreneurship department is amongst the leading of its kind in Europe, with over 50 academics at post-doctoral and doctoral levels who regularly publish in premier outlets. The TIM Group does research, among other things, on patent management and licensing, standards, value capture, technology acquisitions, digitalization, and open source software ([topics](#), [publications](#)).

The position

We are looking for a researcher ("Wissenschaftliche*r Mitarbeiter*in (m/f/d)") who has completed, or is about to finish, his or her doctoral degree to join us on a 100% position at public sector pay scale (TV-L) level E 13 / E 14 (without / with completed doctoral degree). Pay is commensurate with experience, and above 51,500 EUR at a minimum. The position is research focused; teaching will usually be limited to two courses per year plus mentoring of student theses. We offer a dynamic and international work environment, with a research and travel budget available to best support the extension of your international research network. We are committed to supporting your placement on the international academic job market.

Qualifications

You have completed (or are close to completing) an outstanding Ph.D. in management, economics, management information systems, or related subjects, including strong disciplinary methodological (quantitative or formal theoretical) and conceptual training. Experience with quantitative data analysis either at the firm or individual level and a strong interest in the field of technology and innovation management are desirable. Beyond any formal requirements, we are looking for an enthusiastic, self-motivated team player willing to learn, take on responsibility, and develop or expand a promising research trajectory. Knowledge of German is not a requirement.

Your application

As an equal opportunity employer, TUM explicitly encourages applications from women and all others who will bring additional diversity dimensions to the university. Preference will be given to disabled candidates with essentially the same qualifications.

To apply, please send a cover letter specifying your research interests, project idea[s], and possible starting date, your resume, one published or working paper representing the kind of research you would hope to conduct coming here, and copies of relevant certificates via email to Joachim Henkel (henkel@wi.tum.de), who can also answer your questions on the position, with cc to Henriett Kakonyi (henriett.kakonyi@tum.de). The deadline for applications is July 20, 2022. Late applications will be accepted until the position is filled.

We look forward to your application!

The TIM Team
